

# NON-MOTORIZED TREATMENT OPTIONS

**Pedestrians and bicyclists currently use the paved shoulders on NE Woodinville-Duvall Road. The preliminary design study includes a number of alternatives for non-motorized improvements.**

## SHOULDER TREATMENT OPTIONS

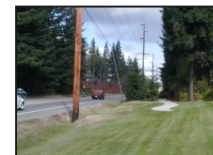

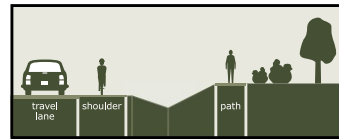

### Shoulder Only

- Shoulder for Pedestrians and Bicyclists
- Grass-Lined Roadside Ditch for Drainage

### Shoulder with Path

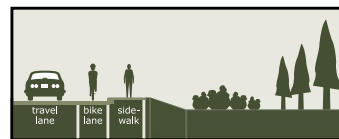

- Shoulder for Bicyclists
- Grass-Lined Roadside Ditch for Drainage
- Separated Path

## CURB TREATMENT OPTIONS

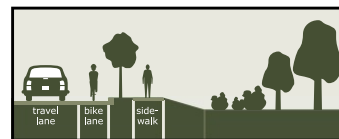

### Adjacent Sidewalk

- Bike Lane
- Curb, Gutter and Storm Sewers for Drainage
- Concrete Sidewalks for Pedestrians

### Sidewalk with Planter Strip

- Bike Lane
- Curb, Gutter and Storm Sewers for Drainage
- Planter Strip
- Separated Concrete Sidewalks for Pedestrians

### Separated Pathway

- Bike Lane
- Curb, Gutter and Storm Sewers for Drainage
- Grassy Strip for Water
- Separated Path
